CAREER OBJECTIVE

Passionate B.Tech 2nd year Information Technology student with a strong foundation in programming and logical thinking. Seeking internship and project-based opportunities to apply academic knowledge to real-world problems and develop industry-relevant skills.

EDUCATION

B.Tech – Information Technology | Aditya University | 2028 | CGPA:8.44

Intermediate (12th) | Bhashyam Junior College | 2024 | 86%

SSC (10th) | Bhashyam School (State Board) | 2022 | 91.83%

TECHNICAL SKILLS

Programming Languages: C, Java, Python, SQL, C++

Core Concepts: Problem Solving, Data Structures

Tools & Platforms: VS Code, Dev-C++, GitHub, Git

ACADEMIC PROJECTS

Campus Ride:

- Developed a smart college bus tracking and management system to provide real-time bus location, route details, and arrival timings.
- Enhanced safety, punctuality, and communication between management, drivers, students, and parents.

Doctor Connect:

- A healthcare support platform that helps users connect with doctors digitally.
- Simplified appointment booking and enabled basic online medical consultation
- Focused on improving accessibility to healthcare services.

Leak Sense Grid :

- Developed an early water leakage detection system using moisture sensors to identify leaks in concrete structures at an early stage.

STRENGTHS

Communication | Analytical thinking | Problem-solving | Teamwork and communication

| Quick Learner

EXTRACURRICULAR ACTIVITIES

- Participated in TechSprint Hackathon
- Participated in Design thinking.
- Attended technical workshops and college-level events
